

2 Mile Landscape

Raymond Ledbetter

Owner / Operator

Dear Homeowners,

I am pleased to introduce myself as the new lawn care maintenance provider for your community. 2 Mile Landscape has officially taken over maintenance services for the HOA, and I look forward to serving this neighborhood with consistency, professionalism, and attention to detail.

Our focus is simple: clean cuts, sharp edges, proper bed care, and a well-maintained appearance throughout the property. My team and I take pride in being dependable and proactive in keeping landscapes healthy and visually appealing year-round.

As we approach the spring season, this is the ideal time to address flower bed maintenance. Late winter and early spring trimming are critical for:

Cutting back ornamental grasses

Shaping and reducing overgrown shrubs

Removing dead plant material

Preparing beds for fresh pine straw, mulch, or rock

Applying pre-emergent for weed prevention

Proper trimming and bed preparation now will promote stronger growth, improve curb appeal, and significantly reduce weed pressure as temperatures rise.

In addition to HOA-contracted services, I offer optional individual homeowner services including:

- Full flower bed clean-outs
- Shrub and hedge trimming
- Pine straw, mulch, or rock installation
- Weed control applications

- Palm trimming (where applicable)

- Landscape enhancements and redesign

If you are interested in more services for your individual property, feel free to reach out directly to discuss options and scheduling. I appreciate the opportunity to serve this community and look forward to keeping a property everyone can be proud

Sincerely,

Raymond Ledbetter
